

LUXARDO · FOOD & BEVERAGE · SPIRITS

One production, **every market and every bar**

Family-owned since 1821, with a bottle of Maraschino behind every great bar in the world. To open new markets it needs the right importers and bartenders, country by country, at the right moment. We designed, built and run **a content and media engine** that turns one creative production into versions for every market and audience, delivers them to **the importers and bartenders that matter**, and tracks every activation **to pipeline and orders**. Craft and technology, in one system.

THE COMPANY

Family-owned since 1821, behind every great bar.

THE GOAL

Open new markets around the world.

THE SYSTEM WE BUILT

A content and media engine: creative production, AI customisation and targeting of importers and bartenders in new markets.

Market signals · Importer targeting · Bartender community · Creative production · AI localisation · Paid media · Creative automation · Pipeline attribution
