

PASTICCERIA GIOTTO · FOOD & BEVERAGE · PASTRY

Every channel, **one customer journey**

One of the world's finest Panettone, made inside Padova's prison by master pastry chefs working alongside inmates, and praised by the New York Times. It sells through e-commerce, corporate gifting, its own stores and resellers. We designed, built and run **one system across every channel**: a single customer data platform, communication timed to each customer's occasions and purchase patterns, and **journeys that take people from first discovery to reorder**, with every touchpoint **measured on sales**.

THE COMPANY

A world-class Panettone made inside Padova's prison.

THE GOAL

Grow sales worldwide, in every channel.

THE SYSTEM WE BUILT

Every customer journey on one customer data platform: e-commerce, corporate gifting, stores and resellers.

Customer data platform · Omnichannel journeys · E-commerce · Corporate gifting · Occasion-based triggers · Behavioural automation · Creative production · Retention and reactivation · Revenue attribution
